VB100 TEST REPORT

Elpha Secure

Elpha Secure Agent

November 23, 2026

Test result

Test passed

A

Detection grade

Grade A

Certification

98.08% malware detected

Clean

0.000% false alarms

Quick Summary

Product version

6.0.0.4890

Test date:

November 2, 2026

Test methodology

VB100 1.7 Link

Test platform

Microsoft Windows 11 Pro, 64-bit, 10.0.26300

Executive summary

We tested **Elpha Secure Agent** (version 6.0.0.4890) on November 2, 2026, on Microsoft Windows 11 Pro, 64-bit, 10.0.26300, as per the 1.7 version of the VB100 methodology.

The tested product has successfully met the VB100 test criteria, with a malware detection grade of A.

Test criteria:

- The product must detect at least 75.00% of all test cases in the Certification set (malicious samples).
- The product must not generate more than 0.05% false alarms in the Clean set (legitimate program samples).

AMTSO Standard Compliance

Virus Bulletin executed this test in accordance with the AMTSO Standard of the Anti-Malware Testing Standards Organization. The compliance status can be verified on the **AMTSO website**.

Test sets and product response

The VB100 test uses multiple sets of malicious and clean test cases to verify the ability of the tested product to detect malware, and to do so without generating false alarms for legitimate programs.

AT A GLANCE

CERTIFICATION	CLEAN
Description	Description
Common and prevalent Windows malware recently observed in the the wild.	A random selection of some widely and less widely used legitimate program files.
Type	Type
Outcome	Outcome
Pass	**Pass**
Detection rate	False alarm rate
98.08%	**0.000%**
Best possible outcome: **100.00%** Requirement: >= **75.00%**	Best possible outcome: **0.00%** Requirement: <= **0.05%**

DETAILED TEST RESULTS

Total cases tested	Total cases tested
1,663	**100,000**
Cases detected	Cases with false alarm
1,631	**0**
Cases missed	Cases without false alarm
32	**100,000**

TEST SET COMPOSITION

Windows PE executables	Windows PE executables
1,663	**30,677**
Other file types	Other file types
0	**69,323**

Report notes

Report notes contain complementary information that may be of interest to the report reader. Likewise, any extraordinary circumstance—particularly, those that may affect the test results—are recorded in these notes.

1. All measurements in this report are based on-demand scanning of samples, either because the product does not offer real-time protection, or its real-time protection is not compatible with the VB100 test methodology. No further information is available at this time.
