# WHY COMPANIES NEED TO FOCUS ON A PROBLEM THEY DON'T KNOW THEY HAVE

Richard Matti Virus Bulletin Conference, London October 2019

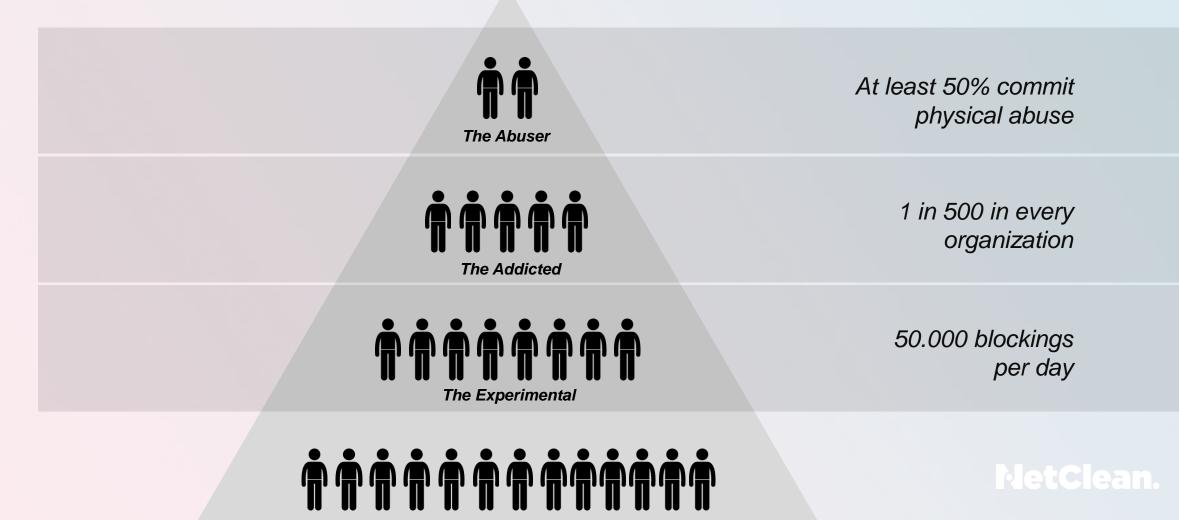

A SECURITY T	HREAT 1	THAT IS	OFTEN	OVERLO	OKED
annun punnin punnin	1				

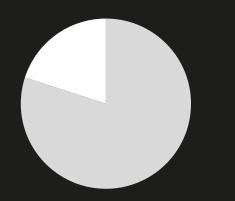

NetClean.

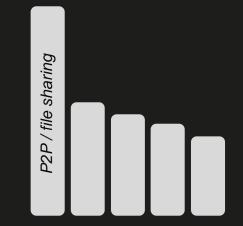

**FACTS** 

80% of the material displays children below the age of 10 years. The spread of Child Sexual Abuse Material is constantly increasing.

50-80% of the material is found through P2P, file sharing and Darknet.

Digital tools facilitate the production, storage and spread of CSAM.

CSAM is illegal to download, distribute, and view in most countries. A problem that exists in all areas of society, family structures, environments and workplaces.

### WEBFILTERS ARE NOT ENOUGH

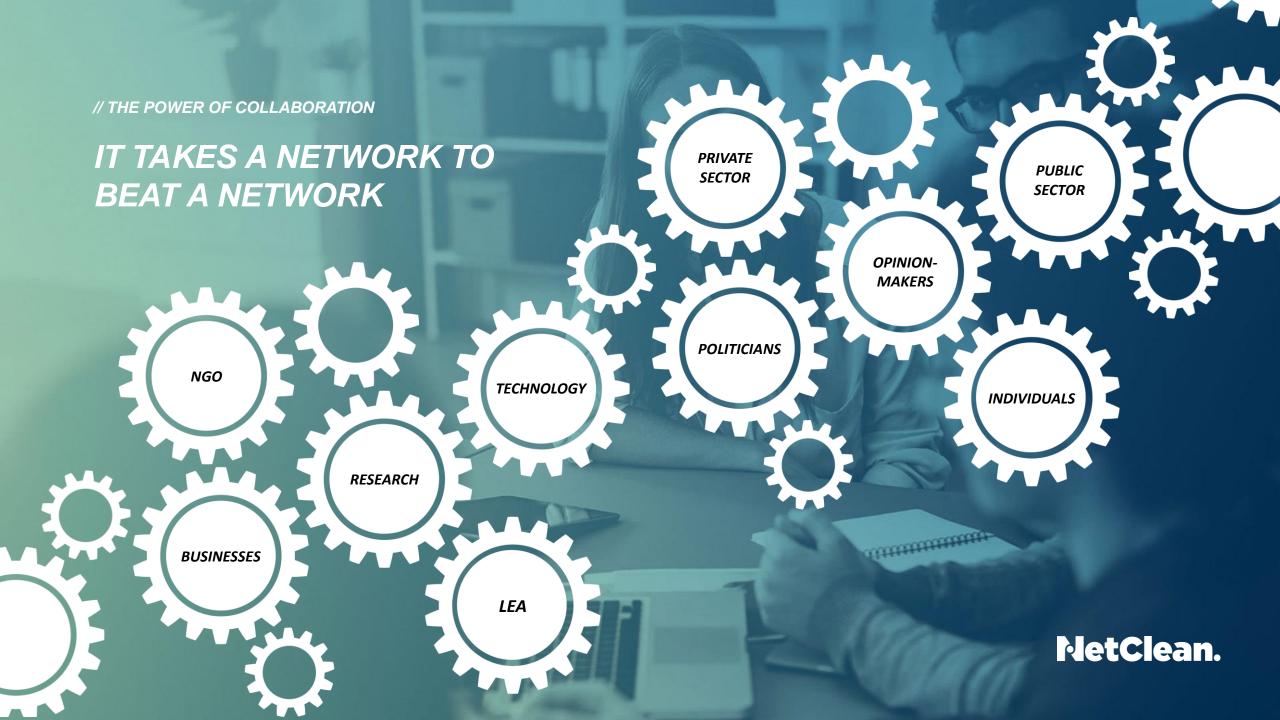

CSAM is illegal and thus not often shared on the open internet Blocks on URL level using lists of known sites that quickly become obsolete Statistically most alerts are triggered by material found on external media

Webfilters only block access, detection provides a way to follow through on alerts

THE EXPERIENCE AND PERSPECTIVE OF EMPLOYERS

CHILD SEXUAL ABUSE CRIME IN THE WORKPLACE

THE WORK COMPUTER IS USED TO COMMIT CHILD SEXUAL ABUSE CRIME

#### // TECHNOLOGY

## NETCLEAN PROACTIVE

- Keep your work environment free from CSAM
- Like an antivirus software
- Only detects CSAM that has been classified by law enforcement

- Signature-based detection
- Extended search capabilities
- Detection regardless of source

ି

// TECHNOLOGY

## WHY IT IS NECESSARY TO DETECT ON CONTENT

Offender documents abuse (image/film)

The material is uploaded to internet (open or Dark Net)

Images and videos are spread across the internet.

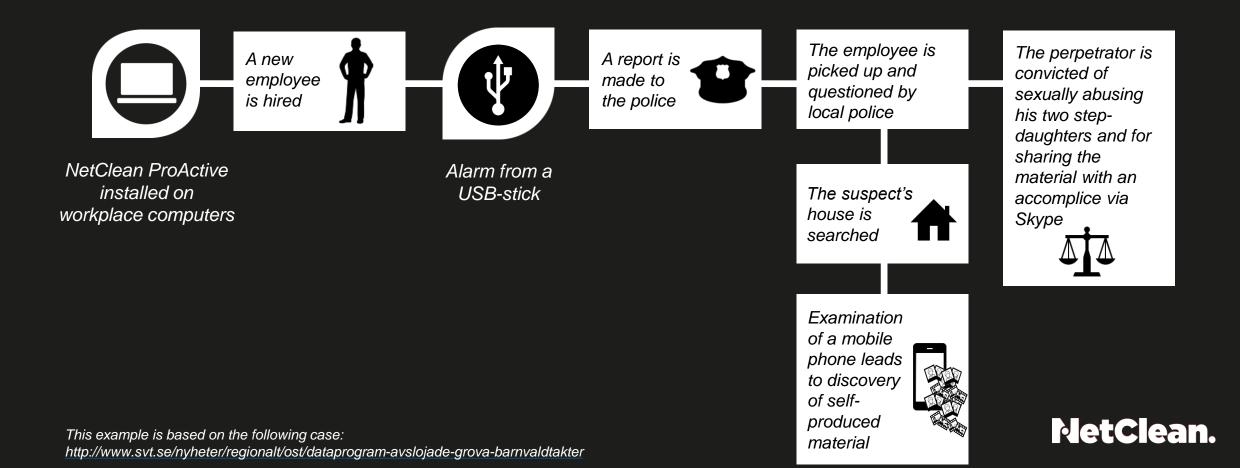

Someone downloads the material (encrypted or without encryption).

The material is accessed by someone's device.

#### // NETCLEAN PROACTIVE

### A REAL EXAMPLE

// PRIVATE & PUBLIC SECTOR

**BUSINESSES & ORGANIZATIONS HAVE A UNIQUE OPPORTUNITY** 

Assist Law Enforcement & help identify & save children from abuse. Identify illegal activity & prevent crime in the workplace.

CSR, Ethical & Responsible Business, Agenda 2030. UN SDGs.

())

Adhering to legislation & Policy Compliance. Brand Protection.

Corporate Security. Manage Risks.

# HOW WILL YOUR ORGANIZATION TAKE RESPONSIBILITY?
